New Generation Eco-Solvent Inks

8 colours in 1 liter packs – will deliver vibrant high density prints with excellent dot gain suited for long term outdoor and interior deco prints. The ink packs in foil go into re-usable ink pack cases, reducing waste. LED lights will show you the ink level status.

XpertJet 1682SR

XpertJet 1641SR

Multi-level Pinch Rollers - Adaptable Pressure

For worry-free feeding and optimum transport of the widest range of media including thin, delicate or slippery substrates, the XpertJet integrates a newly designed multi-level pinch roller system. The pressure on each individual pinch roller can be adapted.

Illuminated Print Platform

LED lights above the print platform will enable the printer operator to easily inspect & follow up print jobs in progress.

A Design for Tomorrow

XpertJet features entirely new cosmetics. The new printer platform integrates proven & industry leading Mutoh technology meeting the demands of digital print professionals. It is also packed with multiple product enhancements to provide you comfort and reliability for many years to come.

DropMaster2

DropMaster, another Mutoh proprietary feature, automatically adjusts the jet fire timings in function of the thickness of the media loaded. With XpertJet, we have taken DropMaster to the next level: DropMaster2. The XpertJet has a built-in colour sensor for automatic bidirectional alignment, saving you precious time and increasing your efficiency.

Enhanced Roll Off System with New Media Feed Flanges

The robust and easily accessible roll off system will facilitate convenient media loading. Newly designed coreless media feed flanges will allow operators to quickly load media and exchange multiple rolls.

High-End Piezo Print Heads

Latest generation micro piezo variable drop print heads producing ink drops as small as 3.5 picolitres ensure extremely precise dot generation and consistency for reliable high quality performance. The heads have been specifically tuned for Mutoh's genuine sign & display inks. XPJ-1641SR has one head on board. XP-1682SR has a dual staggered head setup.

New Intuitive Multi-language OLED Touch Display

The XpertJet has a new OLED touch display for flawless & intuitive printer operation. A colour bar visualises the printer's key status.

i² - Intelligent Interweaving

Nothing beats the real thing! Our well-known Intelligent Interweaving print technology – a game changing feature invented by Mutoh – is obviously on board. Dedicated weave algorithms for the XpertJets will assist you to effortlessly deliver spot on print quality.

Motorised Take-up Systems

The XpertJets are equipped with a motorised torque winder. You can choose between a 30 kg winder for motorised roll up of media up to Ø 150 mm or a 40 kg winder which is suited for media rolls up to Ø 250 mm.

30 kg

40 kg

KEY SPECIFICATIONS	XpertJet 1641SR	XpertJet 1682SR
Print Head	1 piezo head	2 piezo heads (staggered)
Nozzle Configuration	180 nozzles x 8 lines/head	
Drop Volume Range (pl)	3.5 to 35	
Resolutions	360x360, 360x720, 720x720, 720x1080, 720x1440 & 1440x1440 dpi	
Head Heights	Low: 1.5 mm / Middle : 2.5 mm / High : 4.0 mm	
Media Thickness (*1)	0.3 / 1.3 / 2.8 mm	
Media Width	up to 1625 mm (63.97")	
Max. Print Width	1615 mm (63.58")	
Media Measurements (*2)	Ø 150 mm / 2" or 3" / 30 kg	
Ink Type / Volume	Eco Solvent series inks / 1 litre packs	
RIP Software	Included - Onyx RIPCenter Mutoh Edition	
Take-up System	Included - 30 kg or 40 kg motorised torque winder	

(*1) Maximum media thickness is specified per head height. (*2) Standard non-motorised roll-off system.

PERFORMANCE 1

	XpertJet 1641SR	XpertJet 1682SR	
Colour Setup	C M Y K	C M Y K Lc Lm OR GR	C M Y K C M Y K
Production Sweet Spot	5 – 10 m ² /h	5 – 10 m ² /h	10 – 15 m ² /h
Speed Range 2			
Fast Production Range 3	14 -20.5 m ² /h	10.9 - 18 m ² /h	21 - 36 m ² /h
Maximum Speed ⁴	53.4 m ² /h	48.1 m ² /h	87 m ² /h

¹ To discover the XpertJet's performance in function of your application, please contact a Mutoh Certified Distributor for a demonstration.

² The indicated speed range can be used for worry free printing, allowing the broadest type of work and graphics selection ranging from poster to small detailed stickers for short viewing distances

³ Speedy output for selective production. Media, application & print viewing distance dependent.

⁴ Applicability to be judged on individual basis.

NEW GENERATION SIGN & DISPLAY INKS

- 8 colours : C, M, Y, K, Lc, Lm, OR, GR – 1 liter packs
- Cost-efficient and operator-friendly thanks to low maintenance
- Wide colour gamut. Deliver vibrant high density prints with excellent dot gain
- Suited for long term outdoor and indoor commercial graphics

* : For heavy-duty applications where mechanical stress or environmental impact is involved (floor, vehicle and marine graphics), lamination is required. Stabilisation is required prior to lamination.

XPJ-1682SR INK SETUP GUIDANCE

C M Y K	C M Y K Lc Lm OR GR
Main focus on speed production & outdoor work : Car wraps, banners, billboards, soft signage textile	Main focus on high quality, photorealistic prints (smooth skin tones & gradients) for short viewing distance (< 1 m) : Indoor prints, photo reproduction prints / fine art, small sized prints / small stickers

APPLICATIONS

Mutoh XpertJet Sign & Display printers, creating durable prints on coated & uncoated substrates, have been specifically developed for high quality volume production of sign and display graphics, for long-term outdoor applications as well as durable prints for indoor use. The printers produce posters, backlit signage, wall coverings, point-of-sale displays, fine art reproduction, vehicle graphics, stickers and much more.
